

# Flash Files

The **Flash File Macro** allows you to embed Flash movie content into your Confluence pages. Flash content can either be attached to a page in Confluence or accessed via a URL.

## Embed Flash files

```
{flash:url=http://web.ics.purdue.edu/~haagard/utap/confluence/other/add_watch/add_watch.swf|width=450|height=359}
```
