The Birck Nanotechnology Center Wiki is an attempt to document and centralize some of the massive amount of expertise currently spread around the facility in individuals and research groups. BNC users are encouraged to contribute their processes, experiences, issues, and knowledge in order to facilitate the spread of knowledge and increase the speed, quality, and breadth of research that can take place.

BNCWiki contains:

- Equipment pages for both Fabrication and Characterization equipment. These contain a mix of relevant capabilities, technological overviews, SOPs, user manuals, processes, and references.
- Info Pages to store more general information, including Wiki guidelines, iLab information, comments/suggestions/problems, general process troubleshooting, databases of standard and contributed processes, MSDS sheets, and starting points for expertise at Birck.

Research groups may also host their own pages, access to which can be restricted to the group if desired. Please contact Justin Wirth for more info.

Info Pages

- Equipment Status
- Getting Started at Birck
- Wiki Guide
- BNC Disciplinary Policy
- Lab Policies and Best Practices
- iLab
- Standard Processes
- SDS Database
- Research Group Pages

Internal Resources:

- BNC Library
- Fab Forum
- Comments, Suggestions, and Issues
- Process Help and Troubleshooting
- Contributed Processes
- Research Expertise at Birck
- Birck Business Office
- Resources for BNC Staff (Restricted)
