

Live Documents Research Page

Hey guys! Welcome to what will eventually be our wiki page! There will be a lot to do for our wiki, but I know we can accomplish it all as a team. Our wiki will be able to use the application Live Documents. The application website is <http://www.live-documents.com/>. In general, our application is a hybrid between Microsoft Office and Google Documents, where you can access your documents either on or offline. Go to the website and check it out!
